

PENETRATION TESTING

QUALITY ASSURANCE & AUDITING

ABOUT THE SERVICE

Redline can provide your corporation with quality assurance and auditing services, helping you to carry out audits, inspections and assessments. We can help you improve in areas where you might be lacking, thanks to our qualified team of auditors who can review recruitment and training standards and security procedures, whilst also helping to implement rectification programmes, and contingency planning.

We work with you to ensure you receive comprehensive reports highlighting potential vulnerabilities to your operation, as well as providing a detailed risk assessment and advice on how to mitigate, correct and protect your staff, the travelling public and vital assets. Your security requirements are addressed in a cost-effective manner.

OUR QUALITY ASSURANCE SERVICES INCLUDE:

- Testing of CCTV staff awareness and response actions
- Testing of perimeter fence security and response actions
- Physical Penetration testing of security controlled areas
- Covert Testing
- Overt Testing
- Operational assessments
- Hostile reconnaissance
