

# GROUND SECURITY OPERATIVES AND SUPERVISOR

## ABOUT THE COURSE

Redline's Ground Security Operatives and Supervisor Training course will supply your organisation with a pool of security operatives and supervisors, ready to deploy into an operational environment. The course has been carefully designed to cater for all levels of experience, whilst at the same time challenging experienced supervisors who require a refresher course on current industry standards, best practices and new procedures and/or legislation. The course adheres to all DfT Ground Security Operatives and Supervisor syllabus requirements.

If you're looking to progress from a security officer to a security supervisor role, then Redline's training course is the ideal choice for you.

The course will equip you with the confidence and skills essential to a supervisory role, preparing you to solve day to day operational issues, manage staff, complete audits and assessments.
